Junior C#/.NET Developers – YOUNG GRADUATED

Introduction

Amaris is an independent, international Technologies and Management Consulting Group. Created in 2007, Amaris is already established in over 50 countries and supports 500 clients worldwide throughout their projects' lifecycle. Our expertise covers 5 areas of innovation: Business and Management, IT/IS, Telecom, Engineering and High Technologies, Biotech and Pharma. With 65 offices across the World, the Group offers proximity support to its clients in all their locations and many opportunities of international careers for employees.

In 2017, Amaris aim to reach a turnover of 180 million euros, 3500 employees and the ability to recruit one new employee every 5 hours. We expect to triple our workforce within the next years and reach an international leader position in independent consulting.

Job Description

As a junior .NET developer, you will work on many projects that carry varying responsibilities. Below are some examples of the diverse projects with which you might be involved:

- Write server-side code for web-based applications, create robust high-volume production applications, and develop prototypes quickly. This applies particularly to our recruitment application.
- Build our Information System used by almost a thousand of employees around the world, crossing different domains as HR, Finance, Business, and all other corporate functions. Design the project using appropriate technologies and framework (Ajax, JQuery, .Net, JavaScript…) to be efficient while giving the best UI.

Ideal candidates:

- Students from engineering school in Computer Science or related technical discipline (or equivalent) you are looking for a career in an international environment. Possess knowledge in OOP (C# / ASP.NET MVC preferred) as well as database (SQL Server preferred).
- A solid foundation in computer science, with strong competencies in data structures, algorithms, and software design.

amaris | inspiring change
