Tester/ Quality Controller

Introduction

Amaris is an independent, international Technologies and Management Consulting Group. Created in 2007, Amaris is already established in over 50 countries and supports 500 clients worldwide throughout their projects' lifecycle. Our expertise covers 5 areas of innovation: Business and Management, IT/IS, Telecom, Engineering and High Technologies, Biotech and Pharma. With 65 offices across the World, the Group offers proximity support to its clients in all their locations and many opportunities of international careers for employees.

In 2017, Amaris aim to reach a turnover of 180 million euros, 3500 employees and the ability to recruit one new employee every 5 hours. We expect to triple our workforce within the next years and reach an international leader position in independent consulting.

Job Description

Are you looking for a challenging job as Quality Controller Software Engineer in a Technologies and Management Consulting Group on a global scale? If the answer is YES! Then Amaris has an excellent opportunity for you.
We are looking for dynamic QC Software Engineers to work on Enterprise Resource Planning (ERP). Our QC Software Engineers are expected to perform a thorough testing for each product, including setting up the test environment, writing high quality test cases, and performing automation testing when necessary. And below is the list of best practices for testing products which QC Software Engineers perform:

- Collaborate with PO and Scrum team to break down and clarify product features
- Analyze product features and develop functional/non-functional test requirements
- Perform testing, including developing test strategy, test cases, writing test scripts, executing tests
- and analyzing test results
- Test documentation
- Work collaboratively in a dynamic Agile development environment e.g. SCRUM
- Sprint planning and defect tracking by TFS

amaris | inspiring change

Ideal candidates:

- Bachelor's degree in Computer Science or related fields
- Understand ERP domain knowledge
- Experience in working in Agile/SCRUM environments
- Proactive, eager to learn and develop your QC career path in both manual and automation testing
- Good at English (communication and writing)
- Experience in automation testing is a plus
- ISTQB testing certification with any domain certifications is a plus too!

Benefits

- 13th month salary
- 14+ annual leaves per year
- Private healthcare insurance, starting from your probation period
- Yearly performance appraisal
- Company trip abroad
- Teambuilding activities: Team lunch / dinner, football matches / other successes celebrations
- Our working environment:
- Start an actual career, evolutions are very frequent in Amaris thanks to the fact that we are a young & fast-growing company.
- Flexible time: early bird? Night owl? We just adapt to you!
- Work with teams across continents everyday: Europe, Asia, Africa…(we have 75+ nationalities in 2016), improve your English level
