

COMPANY INTRODUCTION: MTI TECHNOLOGY

About MTI

MTI Ltd. (MTI) is a mobile content provider servicing all age groups. MTI was founded in August 1996 and started a weather forecast web service in the following year. Subsequently, MTI offered various services including a music download website and a women's healthcare website. MTI has been expanding their services to electronic books, weather forecasting, traffic information, and a navigation map. Currently, MTI is focusing on their smart phone applications and websites. They have one of the largest numbers of paid-subscribers in Japan, and their service applications such as "music.jp" or "LunaLuna" are well-known in Japan. MTI has been listed with the first section of Tokyo Stock Exchange since March 24, 2015.
