Subject: **Internships available at Simplifi**

_____

Headquartered in city of Naples, Florida, USA, Simplifi has offices in San Diego, Detroit, Mexico City, and Buenos Aires, Argentina.

In January of this year (2020), we added an engineering office in e.Town, Tan Binh District, HCMC. Our HCMC office already has 7 employees comprising of Software Engineers, Mobile Apps Developers and QA/QC Engineers.

Our e.Town office currently has the following internship positions available:
- QA/QC Tester positions
- Software Engineering & Programming positions
- HR & Administrative positions

What students will be learning while working hands-on with:
- Simplifi engineered products that will include WiFi, Cellular, networking, mobile apps, cloud portal, and much more...
- Students will learn real life Software Development Life Cycle (SDLC)
- Students will learn real life Software Testing Life Cycle (STLC)
- Software development, programming skills, software testing skills
- Bug tracking tool Jira, test tracing tool Zephyr.
- Programming languages: Python, Swift, Java, Kotlin, etc.

Students will receive a salary while they are interning at Simplifi. Students will be provided with his/her own laptop/PC and any other required resources for the duration of the internship.

Feel free to contact our HR office (Thao Le: hr@simplifi.io or thao.le@simplifi.io) for more details on these internships.

Regards,

Tan H. Huynh
General Director - Vietnam Branch
Director of Software Engineering
